EDUCATION

Dartmouth College — Hanover, NH Sep. 2022 - Jun. 2026
B.A. in Computer Science & B.A. in Cognitive Science GPA: 3.88

- **Relevant Coursework:** Algorithms, Artificial Intelligence, Machine Learning, Computational Neuroscience, Programming Languages, Reverse Engineering, Object-Oriented Programming; Semantics & Pragmatics, Psycholinguistics; UI/UX Design
- **Honors & Awards:** Neukom Scholar @Dartmouth, Best UI/UX & Best Use of Google AI @Wellesley Hacks 2025

WORK EXPERIENCE

Undergraduate Research Assistant Sep. 2025 - Present
Trust Lab @ Dartmouth College — Hanover, NH

- Conducting voltage-based fault injection to exploit hardware vulnerabilities in Apple AirTags, targeting debug state access.
- Building a CLI to remotely control hardware (oscilloscope, ChipWhisperer, Raspberry Pi Pico, power distribution unit), improving workflow.

NLP & Web Interface Developer Feb. 2025 - Present
Department of Linguistics @ Dartmouth College — Hanover, NH

- Developing a webtool to support annotated lexicons and psycholinguistic metrics for under-resourced languages; built scalable components to enable accessible, community-driven lexicon expansion.
- Built parser and text-to-speech tools for Cook Islands Maori; integrated tools into a website to facilitate language restoration.

MVP Engineering Intern Jun. 2025 - Sep. 2025
Lowkey Enterprises — Boulder, CO

- Built and deployed an iOS app that monitors mental health analytics and sends alerts when things go awry.
- Used PostgreSQL, Kotlin, Swift.

Software Developer Mar. 2023 - Aug. 2025
DALI Lab — Hanover, NH

- Worked in small, agile teams in 10-week sprints to deliver client-tailored mobile and web apps from concept to deployment. Deployed React full-stack applications; designed intuitive user interfaces; engineered robust APIs.
- Displayed dynamic data visualizations for interdisciplinary research projects; captured and analyzed user engagement.
- Used Tailwind CSS to build a modular component library for Dartmouth's admin system, standardizing across sites.

Undergraduate Research Assistant Jul. 2023 - Dec. 2023
Cognitive Neuroscience Lab of Learning @ Dartmouth College — Hanover, NH

- Developed Python-based experimental stimuli for fMRI studies on facial recognition and STEM anxiety.
- Implemented, tuned, analyzed various Scikit machine learning models.
- Refined experimental procedure to optimize data accuracy; assisted with fMRI data collection.

LEADERSHIP

Teaching Assistant Sep. 2023 - Nov. 2025
Department of Computer Science @ Dartmouth College — Hanover, NH

- Provided support to students in understanding problem solving and key concepts in computer science.
- Guided students in prototyping and experimental design for various HCI projects, emphasizing user interaction principles.

Academic Programming Chair & Webmaster Apr. 2025 - present
Alpha Theta Gender Inclusive Greek House — Hanover, NH

- Organized various social and educational events for a diverse and incredibly cool community of students.
- Maintained website infrastructure to support community engagement.

SKILLS

Languages, libraries, & tools: Python, C, Rust, Haskell, Java, React, SQL, MongoDB, Flask, Django, Docker, AWS, Streamlit, Godot
Concepts & knowledge: Algorithms & data structures, natural language processing, machine learning, artificial intelligence, cybersecurity, glitching, game dev
Design & graphics: UI/UX, Figma, Adobe Photoshop, Adobe Illustrator, graphic design, illustration
Languages: Mandarin (C1), German (B2), Spanish (B2)
